

# VIRTUAL REALITY EXPERIENCES

Give us an empty space (4x4m-20x20m) with basic lighting  
...and we'll transform it into anything!

Cops Vs Robbers

Cook'd Up

Aim Assault

Dead Corps

B-Block Prison Break

Carnival Showdown

6 of the 30+ titles available

## From Space to Experience

We don't just transform spaces. We ignite them. We layer in gameplay, interaction, competition. Achievements. Objectives. Adrenaline. Moments of tension. Bursts of action, and genuine wonder.

## Effortless to Deliver

No physical set build. No complex lighting rigs. No infrastructure headaches. Just reliable, proven, professional-grade VR equipment to consistently deliver entertainment.

## Built for Real Events

We can run entirely on battery power if needed, and can scale to handle serious throughput without breaking a sweat. What would normally cost a fortune in physical production... we deliver at a fraction of the price.

## Designed Without Limits

This isn't just immersive. It's limitless. A new kind of experience—unbound by space or infrastructure. Flexible enough to fit any environment. Powerful enough to deliver at scale. Engineered for impact.

## Experiences for All

From high-intensity shooters to cooperative adventures and escape rooms, we offer a wide-ranging catalogue of proven, crowd-ready titles, that is constantly growing. We create moments of competition, teamwork, and shared excitement.

## Something for Every Event

Competitive, casual, or collaborative - our experiences are suited to every type of guest, every demographic, and every event format. Designed to engage quickly and keep people coming back.

## Built for High Footfall

Short, repeatable sessions can maximise throughput without sacrificing quality or impact. Ideal for busy environments where engagement, flow, and consistency are critical to success.

## Accessible, Instantly Engaging

Whether first-time players or seasoned gamers, every experience is intuitive, inclusive, and easy to step into. Small learning curve. Just immediate, compelling entertainment.

## Enhanced Immersion

With Striker VR guns and bHaptics vests, physical feedback and realism elevate every moment. Interaction becomes tangible, memorable, and far more engaging. Creating deeper immersion that audiences don't just see - they feel.

## Flexible Event Integration

From simple walk-up activations to fully managed booking systems, we adapt to your event structure. Seamless integration with your schedule, audience flow, and operational needs.

## Designed for Commercial Use

Offer experiences as free-to-play attractions, premium ticketed sessions, or revenue-generating features. Flexible models that align with your goals and maximise return.

## Built to Perform Consistently

Reliable, scalable, and easy to manage on-site. Every setup is designed to deliver smooth operation, strong engagement, and dependable results throughout your event.
